

Project description

(Source Sans Pro, font size 10)

| | |
|---|--|
| Funding programme: DAAD-Kyoto University Partnership Programme towards SDGs 2023 | |
| Programme objective/s (outcomes) of the funding programme¹: Outcomes are predefined and must not be changed | |
| Programme objective (outcome) 1: | Junior scholars and Early Career Researcher (ECR) have gained international and SDG-relevant (UN Sustainable Development Goals: https://www.un.org/sustainabledevelopment/sustainable-development-goals/) research experience and undergone further training at an international level |
| Programme objective (outcome) 2: | Binational research cooperation has been promoted and can be used as a starting point for future co-operations |
| Results of the measures/activities (outputs) of the funding programme²: Outputs are predefined and must not be changed | |
| Result (Output) 1: | There are joint research results on the thematic area of SDGs |
| Result (Output) 2: | Partnerships with Kyoto University have been created, strengthened and networks established |

(1) Type of ECR Mobility

| | |
|--|-------------------------------------|
| | <input checked="" type="checkbox"/> |
| Type 1: Mutual ECRs mobility (Two-ways) | <input type="checkbox"/> |
| Type 2: ECRs Mobility from Kyoto Univ. to German university and research institute (one-way) | <input type="checkbox"/> |
| Type 3: ECRs Mobility from German university and research institute to Kyoto Univ. (one-way) | <input type="checkbox"/> |

(2) General information

| | |
|----------------------------------|---|
| Title of the research project | Please specify |
| About PI in a German institution | |
| Applying institution | Please specify |
| Organisational unit | Please specify |
| Discipline | Please specify |
| Principal investigator (PI) | Title, First and last name please specify |

¹ The project does not necessarily need to aim at achieving all programme objectives (outcomes of the funding programme). 'Funding programme' and 'programme' are used synonymously.

² Only the results of the measures/activities (outputs of the funding programme) which are relevant for the selected programme objectives (outcomes of the funding programme) must be taken into account.

Project description

| | | | |
|---|--|--|--|
| Requested approval period | from: please specify a date to: please specify a date | For follow-up application ³ : Previous approval period: | from: please specify a date to: please specify a date |
| Parallel funding and/or parallel application in another DAAD programme? | | yes <input type="checkbox"/> | no <input type="checkbox"/> |
| If yes, please specify? | Please specify | | |
| Is there already parallel funding and/or a parallel application to another funding body for the same project? | | yes <input type="checkbox"/> | no <input type="checkbox"/> |
| If yes, please specify? | Please specify | | |
| Cooperation partner / partner institution (within and outside Germany) | Kyoto University | Japan | |
| About PI at Kyoto University | | | |
| Principal investigator (PI) | Title, First and last name please specify | | |
| Supervisor at Kyoto University if necessary ⁴ | Title, First and last name please specify | | |

(3) Short summary of the project

Please give a short description of the planned project (*no more than ½ DIN A4 page*).

Please specify

(4) Project objectives, detailed project description and reference to results logic

1. Please state your project objectives (outcomes), which must be consistent with the programme objectives (outcomes) mentioned above and describe the specialised content of the project. Explanation should refer to the results logic: which specific project results (outputs or results of the measures/activities) contribute to achieve these project objectives (outcomes)⁵.
2. Touch upon the relevance of your project and ensure that you address all selection criteria in the programme description, which are listed here again:
 - (1) Relationship of the project to the programme objectives (as per the impact analysis structure) and results-oriented planning by using indicators that meet the SMART criteria.⁶
 - (2) Please explain the need to spend on requested measures (criteria refers to why and how long the planned stay abroad is necessary - respective details to be explained under "Measures/Activity planning").
 - (3) Scientific value of the research.

³ Follow-up application: Application for a project which immediately follows on from funding for the previous year in the same funding programme.

⁴ It is necessary for only a Ph. D. student to fill the information of his/her supervisor in order to submit this proposal.

⁵ For the definitions of 'Outcomes' and 'Outputs', please refer to the 'Guide to Results-oriented Monitoring'.

⁶ See 'Guide to Results-oriented Project Planning and Monitoring', Chapter 2.

(4) Benefits of the exchange of doctoral students and junior researchers for the development of a joint network with the chosen partners.

(5) Convincing concept with regards to the enhancements planned for the established or reinforced scientific network of the partners.

(6) Added value of the project in respect to a long-term bilateral or multilateral co-operation towards UN Sustainable Development Goals

3. Please describe potential risks in relation to the success of the project and explain how you plan to face them.

Please note:
The project objectives (outcomes) and intended results of the project's measures/activities (outputs) must be in line with the results-oriented project planning depicted in the project planning summary.

Please specify

(5) Measures/activities planning

Description of the measures/activities

Please describe the planned measures/activities (also see the category 'Measures/activities eligible for funding' in the call for proposals).

If necessary, insert new rows in the table for further planned measures/activities.

Note:
Measures/activities must be in line with the results-oriented project planning depicted in the project planning summary.

When describing the measures, you should also indicate, which research group will perform which work items and where this will take place. Please indicate which methods will be used.

| | |
|-------------------------------------|----------------|
| Title of measure/activity 1: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 2: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 3: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 4: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 5: | Please specify |

Project description

| | |
|-------------------------------------|----------------|
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 6: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 7: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |
| Title of measure/activity 8: | Please specify |
| Description: | Please specify |
| Place and time frame | Please specify |

(6) Sustainable impact and perspectives

Please explain how sustainable impact beyond the planned funding period may be achieved as well as potential perspectives for the project. Risk factors, responsibilities, and possible strategies to address these, should be outlined, too. (*max. ¼ DIN A4-Page*)

Please specify

(7) Planned international mobility of the research groups

Please enter the planned stays of the researchers at the respective partner institution abroad during the funding period in the table below chronologically.

| German project participant to perform stay abroad | Academic status | Research task to be performed | Duration in days | Planned date of stay (MM/YYYY) |
|--|------------------------|--------------------------------------|-------------------------|---------------------------------------|
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |

Project description

| Japanese Project participant to perform stay in Germany | Academic status | Research task to be performed | Duration in days | Planned date of stay (MM/YYYY) |
|--|------------------------|--------------------------------------|-------------------------|---------------------------------------|
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |
| Please state the name, if known | Please specify | Please specify | Please specify | Please specify |

| | |
|---|--------------------------------|
| (8) Further programme specific information | |
| Structure of the research group and role of project participants (for a German PI to fill out) | |
| List the project participants in Germany and outside Germany and state the tasks for which they are responsible in the project. | |
| Explain the structure of the group of researchers and the criteria based on which you selected the project participants. | |
| Please specify | |
| Anticipated benefits/usability of the experiences and results of the project | |
| How are the results of the project to be used? | |
| Please specify | |
| Financing Plan / cost breakdown | |
| Please enter in the table financing plan in German and Kyoto University's groups respectively | |
| German participant of the project | |
| Total Content/Amount (EURO)⁷ | Remark (cost breakdown) |
| Please specify | Please specify |
| KU participant of the project | |
| Total Content/Amount (Yen)⁸ | Remark (cost breakdown) |
| Please specify | Please specify |

⁷ If you apply for Type 2, please write "0 EURO".

⁸ If you apply for Type 3, please write "0 yen".

| (9) Application checklist | | |
|--|---|---|
| Application documents relevant to selection | |  |
| 1 | Project application (in the DAAD portal) | <input type="checkbox"/> |
| 2 | Financing plan (in the DAAD portal) | <input type="checkbox"/> |
| 3 | Project description | <input type="checkbox"/> |
| 4 | Project planning overview (only for applications to the DAAD) | <input type="checkbox"/> |
| 5 | Research profile (only for applications to the DAAD) | <input type="checkbox"/> |
