- Focussed on bibliometrics
- Ratified by Senate in November 2016
- Essentially a local implementation of the Leiden Principles
- Main local implementation is that Schools choose their own metrics (or none)
- Metrics more formative than summative
- Always allow for expert commentary

- 書誌情報に基づく指標に 焦点
- 2016年11月の評議員会で 承認
 - 基本的にライデン声明の原 則のローカルな実施
- 主なローカルな実施方法としては、各研究科が自らの指標を選ぶ(もしくは指標を使わない)。

Measuring the magnificence of monographs

At Loughborough University we have recently been thinking about how we can use bibliometrics responsibly. Not surprisingly our conversations tended to focus on journal and conference papers where the majority of citation databases focus. However, as part of this process the question inevitably arose as to whether there were also ways we could measure the quality or visibility of non-journal outputs, in particular, monographs. To this end we thought we should explore this question with senior staff in

Responsible metrics requires regular review

- 責任ある指標に必要なのは定期的な振り返り
- Loughborough currently reviewing it's Responsible Metrics policy
- Extending to all research metrics, not just bibliometrics
- Introducing a mandatory training element

- ・ ラフバラ大学では、現在責任ある指標方針を見直し中
- ・ 書誌情報以外のすべての 研究評価指標を含む方向 へ
- 必須研修要素を導入

定期的なレビューが必要。 研修の必須化も。
